- ✓ Mockup design & execution
- ✓ Thorough documentation process
- ✓ Timely delivery
- ✓ Innovative mind set
- ✓ Following agile process
- ✓ Client-centric approach
- ✓ Result-oriented implementation
- ✓ Automation tools for all operations

Client speak About Us

Alex S.

Ishank and the W3villa team have been amazing and very productive since the beginning. We are a wheel company and we've been able to streamline and automate a large amount of our manual processes through technology.

David R.

Great team and Smart developers. Ishank, the CEO, is a great leader that works hard to get things done. They also have a good design team that creates ultimate design solutions for us. They were incredibly helpful when dealing with frontend work!

Gunjan K.

It has been entirely our pleasure to have worked with W3villa, the company actually gave wings to our idea. The way W3villa has executed the entire project were really amazing.

Journey so far

Our Achievements

200+ Projects Delivered

Value addition by providing extensive profit to the client.

100+ experienced engineers

on average, 600+ years of cumulative experience.

90+ Satisfied clients

Still have a good relationship with them.

8+ years of experience

Proved our presence in the US market.

Appraised CMMi maturity level-3

Projects Glimpse

Aftermarket online platform for Vendor and Yard Management

Overview

Largest B2B automotive marketplace that helps salvage yards to increase their fill rate and close more sales.

Solution:

W3Villa technologies developed the entire platform. The platform enables many vendors to sell their aftermarket products to salvage yards. These yards at the same time can define and decide their budget for the given category by setting their margins. The implementation was to have custom rules engine-based calculations, that runs on full automation mode.

Technology Used:

Ruby on Rails, Redis, MySQL, Sidekiq, ElectronJS, HTML, CSS, JavaScript

Features:

Reseller Budgeting, Sales Forecasting, Engagement Engine

Projects Glimpse

A healthcare screening platform or B2B by enabling variety on labs around

Overview

A software that provides seamless health testing to connect people and make testing more accessible

Solution:

W3Villa technologies developed a Health screening platform that enabled organizations to get their participants screened against various health checkups, giving them suggestions based on a self-learning system and risk management. Ensuring HIPPA and HL7 messaging is one of the key factors to integrate labs that are going to provide on-site and/or at-home services.

Technology Used:

Ruby on Rails, Redis, MySQL, Sidekiq, KAFKA, Microservices, HTML, CSS, JavaScript

Features:

Lab Onboarding, Lab Integration, Fulfillment Flow for screening kits, Engagement Engine, Risk Analyser, Campaign Management, Nurse Portal, Reporting.

Projects Glimpse

Online Ecommerce portal for Eyewear

Overview

The platform offers a wide range of eyeglasses designed to be used by people who use computers extensively in their work.

Solution:

We analyze the situation and our subject matter experts suggest rebuilding a website by following current trends and eCommerce best practices to reverse that trend, turning website visitors into repeat, paying customers. In addition, the W3villa technologies solution architect incorporated a state-of-the-art fulfillment solution such as product listing, buying, filtering, payment gateway integration, etc.

Technology Used:

Ruby on Rails, Spree Commerce, MySQL, HTML, CSS, JavaScript

Features:

Multiple eyewear product implementations, Shipping & Billing, Payment Gateway Integration, Order management, Invoicing, Delivery system, reporting and analytics

Projects Glimpse

Marketplace for OEM replacement wheels

Overview

One of the largest online marketplace of aftermarket OEM replica steel wheels in the U.S.

Solution:

W3villa Technologies has developed an ecommerce platform featuring multiple levels of user and customer engagement processes. The project is associated with the sale of replica car wheels, and thus integrates modules of multiple car manufacturers, models, and year variants. Functions like Smart search and online chat represent the crucial success parameters of such an e-commerce platform.

Technology Used:

Ruby on Rails, Spree Commerce, MySQL, HTML, CSS, JavaScript, Bootstrap

Features:

Billing and Shipping, Payment Gateway Integration, Product listings, Order management, Invoicing, Delivery system, reporting and analytics

Projects Glimpse

AI driven virtual healthcare platform

Overview

It's a AI driven telehealth helping hospitals, employers and health systems build end-to-end health engagement with community organization to address social determinants of health.

Solution:

W3villa developed end-to-end AI-driven health engagement portal. Provided Cart facility, Multiple integration of third party-app, Scheduling services, Real-time reporting and analytics, developed health risk features to track etc.

Technology Used:

Ruby on Rails, Python, MySQL, HTML, CSS, JavaScript, Bootstrap

Features:

Integrated SDoH, Real-Time Tracking, Schedule & Coordinate

Projects Glimpse

Online Crypto Trading platform

Overview

It is a peer-to-peer largest cryptocurrency trading platform dealing in CFDs. It provides a smooth interface and a safe and secure method for trading in multiple cryptocurrencies available in the market.

Solution:

W3villa technology built a cryptocurrency platform that helps the trading process smoothly with other crypto trading platforms. Users can securely sell, buy and trade well over 160 cryptocurrencies with other crypto traders. Another key feature developed in this crypto portal is Virtual trading: allowing traders to operate with a virtual form of cryptocurrency.

Technology Used:

Ruby on Rails, Python, Ionic, AngularJs, Node js, eToro

Features:

Crypto trading facility, Wallet Integration, Push Notification
QR & Barcode scanner reader, KYC integration, 2FA, Payment Gateway integration

Thank You :)

Thank you for sharing your time with us!

A memorable journey starts with great ideas and concludes with the right execution. Our strategic approach keeps it aligned!
